

April 12, 1982

MISSOURI DEPARTMENT OF NATURAL RESOURCES
P.O. Box 1368 1915 Southridge Drive Jefferson City, Missouri 65102 (314) 751-3241

Mr. Donald Malvern
Executive Vice President
McDonnell Douglas Corp.
P.O. Box 516
St. Louis, MO 63166

EPA I.D. No.: MOD000818963

FACILITY LOCATION:
Brown Road at Lindbergh
Hazelwood, MO 63145

Dear Mr. Malvern:

This letter is preliminary notification prior to a formal request for five (5) copies of your permit application for a hazardous waste facility permit under the Missouri Hazardous Waste Management Law. This request is made under the authority of 10 CSR 25-7.011(1)(D). You may have already received a letter from EPA Region VII calling for Part B of your federal permit.

Enclosed for your reference is a copy of the Missouri Hazardous Waste Management Law and Rules. In accordance with 10 CSR 25-7.011(1)(D)4. your permit application is due within ninety (90) days from the date the department provides written formal notice. The Department of Natural Resources and EPA Region VII will be conducting a joint review of your application, to maintain consistency with EPA Region VII and to allow adequate time for application preparation the department is providing advanced notice that it will officially call for your permit application on July 8, 1982. Your permit application must be submitted to the department with a postmark dated no later than October 6, 1982. If any part of your permit application is being submitted under a claim of confidentiality, please indicate this fact. For more information on confidentiality, see 260.430 of the Missouri Hazardous Waste Management Law.

If your firm stores or treats hazardous waste in underground tanks, the EPA has special considerations which may apply. If your firm operates any underground storage or treatment tanks, the Missouri Hazardous Waste Management regulations allow the following options:

1. The operator can voluntarily choose to install manholes for inspection, or discontinue the use of the tanks which cannot be inspected.
2. Compliance with 10 CSR 25-7.050(4)(A)3.

The Missouri DNR and EPA Region VII plan to hold a pre-application workshop on May 4, 1982, to discuss the

Christopher S. Bond Governor
Fred A. Lafser Director

Division of Environmental Quality
Robert J. Schreiber Jr., P.E. Director

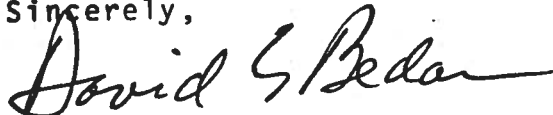

R00144160
RCRA RECORDS CENTER

application requirements in more detail. It will be held at the Missouri Department of Natural Resources offices, Upstairs Conference Room, 1915 Southridge Drive, in Jefferson City, Missouri. The workshop is scheduled to start at 9:30 a.m. We expect the general session and the individual question and answer sessions to be completed by 4 p.m. We will call you on or about April 20, 1982, to determine if you and/or your staff will be able to attend the workshop as scheduled.

The attendance by you or appropriate members of your staff at this workshop should help improve the quality of your firm's application and thus help minimize processing and review time. A representative of a consulting engineering firm, if you have retained one, can also be invited to attend this meeting along with you and/or your staff. This workshop is being offered as an aid and service to your firm; the timing of the workshop should not be used as a reason to delay starting the development of information for submitting your permit application. The application due date noted above is firm and will not be modified. Please note under 10 CSR 25-7.011(1)(D)5. that failure to furnish a requested permit application on time, or to furnish in full the information required by the Permit application, is grounds for termination of interim status under 10 CSR 25-7.011(1)(D)5. Your cooperation in trying to improve hazardous waste management facility operations in Missouri is appreciated.

Any questions regarding this letter, or your permit application should be directed to Joe Jansen of this office.

Sincerely,

David E. Bedan, Ph.D.
Director
Waste Management Program
